

RESPONSIBLE WASTE MANAGEMENT

RECYCLE - 40% OF THE ITEMS IN RECYCLING BINS CANNOT BE RECYCLED DUE TO CONTAMINATION.

Practise good recycling habits by rinsing your items before recycling to give recyclables a new life!

SICC recycles not only food waste, but also used cooking oil, paper, carton boxes, plastic bottles, and metal containers. More recycling options are currently being considered.

Members of the United Nations pledged to implement 17 Sustainable Development Goals (UNSDGs) - a shared blueprint for advancement of a sustainable, inclusive and just society.

SICC has aligned our sustainability journey with these goals and has recently gathered more than 125 sustainable initiatives that cover 9 UNSDGs.

TOGETHER WE CAN MAKE A DIFFERENCE
