

OUR SUSTAINABILITY JOURNEY

UN SDG 7

AFFORDABLE AND CLEAN ENERGY

To date, a total of **747 solar panels have been installed** at SICC's facilities Island location to generate electricity from free solar energy.

This solar PV system is estimated to provide an average of 539,000 kWh of clean energy per year, equivalent to powering the night-time air conditioning requirements of approximately 120 Singaporean homes on a 27 °C night for eight hours. ■

"Individually, we are a drop. Together, we are an ocean."
- Ryunosuke Satoro

SUSTAINABLE DEVELOPMENT GOALS

TOGETHER WE CAN MAKE A DIFFERENCE

Members of the United Nations pledged to implement 17 Sustainable Development Goals (UNSDGs) - a shared blueprint for advancement of a sustainable, inclusive and just society.

SICC has aligned our sustainability journey with these goals and has recently gathered sustainable initiatives that cover 11 UNSDGs.
