

OUR SUSTAINABILITY JOURNEY

12 RESPONSIBLE
CONSUMPTION
AND PRODUCTION

UN SDG 12

RESPONSIBLE CONSUMPTION & PRODUCTION

Ensuring we consume our resources wisely and minimising waste is the goal. We need to do this to make sure there's enough for everyone, now and in the future.

Since 2020, SICC has recycled 21,000 kg of used cooking oil and counting, giving it a new life as biofuel, soap, and other useful things!

SUSTAINABLE DEVELOPMENT GOALS

TOGETHER WE CAN MAKE A DIFFERENCE

Members of the United Nations pledged to implement 17 Sustainable Development Goals (UNSDGs) - a shared blueprint for advancement of a sustainable, inclusive and just society.

SICC has aligned our sustainability journey with these goals and has recently gathered sustainable initiatives that cover 11 UNSDGs.
