

OUR SUSTAINABILITY JOURNEY

Emissions from traditional vehicles contribute to air pollution, which has significant health impacts. By providing easy access to EV chargers, the Club encourages the switch from fossil fuel-powered vehicles to EVs, which can significantly improve air quality. ■

Island Members' Car Park (Loading Bay)

Island Members' Car Park (Admin Office)

The Bukit Car Park (Outside The Canopy)

As of July 2024, SICC has installed a total of 10 EV charging parking lots at our Club facilities
The Bukit: 4 lots in front of Canopy
Island: 6 lots (4 at Members' loading bay, 2 at Members' Car Park)

SUSTAINABLE DEVELOPMENT GOALS

TOGETHER WE CAN MAKE A DIFFERENCE

Members of the United Nations pledged to implement 17 Sustainable Development Goals (UNSDGs) - a shared blueprint for advancement of a sustainable, inclusive and just society.

SICC has aligned our sustainability journey with these goals and has recently gathered sustainable initiatives that cover 11 UNSDGs.
