UNSDG (Goal 12): Responsible Consumption & Production

Ensuring sustainable consumption and production patterns so that what we have will go around.

Instead of disposing them as waste, SICC re-purposes felled trees and recycled Tee stanchions from our golf courses into new informative signs and markers. Spot these signs and markers of SICC's sustainability efforts the next time you are around our golf courses.

Tee Markers

12 RESPONSIBLE
CONSUMPTION
AND PRODUCTION

Repurposed Felled Tree trunks

Recycled Tee Stanchions

SICC remains committed to forging new paths in our sustainability efforts.

SUSTAINABLE DEVELOPMENT GOALS

TOGETHER WE CAN MAKE A DIFFERENCE

Members of the United Nations pledged to implement 17 Sustainable Development Goals (UNSDGs) - a shared blueprint for advancement of a sustainable, inclusive and just society.

SICC has aligned our sustainability journey with these goals and has recently gathered sustainable initiatives that cover 11 UNSDGs.
