

Redefining Golf with Sustainability In Mind

Sustainability is woven into every contour of the redeveloped Island Course. From forest edges to fairways, our design choices reflect a deep commitment to restoring habitats, protecting biodiversity, and harmonising play with the natural environment.

Wildlife Highways

Preserving tree corridors and forest edges to allow native species to move and thrive.

Living Heritage

Building around mature trees and replanting rare native species to restore greenery and strengthen ecological balance.

Nature-Inspired Waterways

Incorporating natural water features for better stormwater management and habitat rehabilitation.

SICC is committed to social sustainability, and we believe that it is important to create a more just and equitable society for all. We invite you to join us in our efforts to make a difference.

Members of the United Nations pledged to implement 17 Sustainable Development Goals (UNSDGs) - a shared blueprint for advancement of a sustainable, inclusive and just society.

SICC has aligned our sustainability journey with these goals and has recently gathered more than 125 sustainable initiatives that cover 9 UNSDGs.
